

# Environmental Management System In Refineries

## CHAPTER

## TOPICS

- |                |  |
|----------------|--|
| Chapter - I    | Environmental Issues & Awareness In Refineries   |
| Chapter - II   | Air Pollution Control In Refineries  |
| Chapter - III  | Waste Water Pollution Management In Refineries   |
| Chapter - IV   | Hazardous Solid Waste Management   |
| Chapter - V    | Environmental Impact Assessment, Monitoring and Reporting  |
| Chapter - VI   | ISO 14001 EMS - A Tool for Environmental Protection In Refineries                                |
| Chapter - VII  | Information Technology in Environmental Management   |
| Chapter - VIII | Technology Upgradation in Environment Sector In Refineries                                       |
| Chapter - IX   | “Look at” and “Look For” in Refineries on Environmental Conservation For Sustainable Development |
| Chapter - X    | Benchmarking in Environment Sector of Petroleum Refineries                                       |
| Chapter - XI   | Refinery Process Technologies for “Clean Fuels and Lubes”  |
